AMERICANS FACE LOSS IN MEXICO

AMERICAN MILLIONS MAY BE CONFISCATED AS RESULT OF NEW AGRARIAN LAW.

By News' Special Service
WASHINGTON, Aug. 2.—More than a thousand Americans are threatened with the loss of millions of dollars in investments by a new agrarian law enacted by the congress of Sonora, Mexico, at the direct instructions of Governor Calles. Several American companies have already fled complaints with the state department against the operation of this law. The department is preparing representations to the Carranza government against putting the law into operation because of injustices this government contends it works upon United States citizens who have invested many millions in agricultural lands in Sonora.

Bonds of No Value.
By the terms of the law, it is provided that the state will pay for lands expropriated by agrarian bonds issued by the state, redeemable at a time and manner to be stipulated later. The new constitution of Mexico provides that the states shall issue agrarian bonds under authority of a law that has not yet been enacted by the federal congress. The Americans point out in their complaints to the state department that these bonds are of no value and inasmuch as the national government of Mexico has not paid the interest on its bonds since 1913, there is no indication that the agrarian bonds will be of any value.

The alternative for the Americans of these lands is to sell them to Mexicans and take pay in twenty annual instalments of Mexican money. Any dispute is to be left in the hands of the governor who may act arbitrarily.

Practical Confiscation.
Americans in their complaints to the state department point out that in order to make much of the lands of Sonora productive extensive irrigation works are necessary and many millions of dollars have been expended there in every instance by citizens of the United States. The holdings of Americans have, without exception, been secured under the old constitution. The fact is the Mexican government as then constituted encouraged Americans in making these investments.

The complaints filed with the state department protest against the arbitrary expropriation of these lands, which, it is contended, means practical confiscation.

What the Public Wants.
What the public wants first of all is good service and pleasant dealings, it constantly wants and demands better pictures. The producer, exhibitor and patron welcome and heartily endorse those productions of the better kind. The producer and exhibitor or distributor first spend more money in such features which, in turn, the local exhibitor pays and must charge more for. Everyone of us have a certain high standard in our particular branch of business, because we have kept faith with the public and with our fellowman. We feel that our word should carry some weight with those whom we serve and we want to make it known, that we are here to serve our patrons, first, and the public in general, is a secondary matter, yet, at all times we strive to please the most exacting public. The biggest critic is our best friend, for at times he points out something that helps and tends toward improvement. That's why we want you to see our program each week at the American, more especially the bigger productions, which appear here every week. Watch, "A Turn in the Road" endorsed by press, public and pulpit. To say it is a great moral educator would be putting it too mild—you'll see it yourself and then you'll tell others—it's that kind. Come to the American Theatre Thursday and Friday, 7th and 8th. Special.

SERMON ON CROSS BEARING TODAY

HARLOTS ARE LADIES BESIDE SOME CULTURED, REFINED, GODLESS CHURCH MEMBERS IN ADA.

This morning a testimony meeting engaged in by many people preceded the sermon, and Prof. Ramsay sang "Tarry For Power." Mr. Ham took as his text: "If any man would come after me, let him deny himself, take up his cross and follow me." He talked of crosses, assuring his hearers that self must be yanked off the throne by any who would follow Christ. He spoke briefly as suggested below.

"Bear your cross or else do not suppose you will have fellowship with the Lord. You cannot have the fellowship of Christ without bearing your cross among your associates. You must witness for the truth with courage. If you are ashamed of Jesus now he will be ashamed of you then before God and the angels.

"You preachers would stand well with the society bunch if you would go down to Sulphur once in a while with them and wallow around all day with their wives whose bathing suits have not enough goods in them to make a pair of britches for a jay bird. But if you are to have a home in heaven, you will have to stand true for God and his truth at all times and in all places. Could you do this wallowing with the wife of one of your church officers?"

"You will have to love and seek to save outcast sinners. The cultured objected when Jesus tried to save the outcasts in his day, and folks have not changed very much. The fact is that culture nowadays just means being brazen. I want to say right here that folks who give social functions during these meetings and invite others to attend are pimps of the devil. I am glad that every pastor here shouted 'Amen' to this. Yes, you run the poor harlot out of town and clean up. Jesus loved them and saved them. Jesus came to save them, but you run them out of town and brag that you have a clean city. Jesus gave all the skinners he had to give to such hypocrites as you have in all the churches here in Ada. You churches run after people who ride in fine autos. You don't worry much about the family that moved to town in a covered wagon. I wish you had a church that wanted the people all the other churches had no use for. But you don't seek fellowship with those society has ostracized and stigmatized. If your church started such a plan there are some sisters here who could say 'That counts me out.' Sis, the Lord has already counted you out."

"If you bear your cross, you will have to show your disapproval of every system that makes any artificial distinction between virtue and vice. It will not do to substitute reformation for regeneration. Lots of your people have reformed and there will be a big bunch from Ada in hell that will go in a nice gentlemanly manner. Reformed and not regenerated—that is why you have so much fun at the lewd resorts at Sulphur. You have cultured, refined, godless women in this town far worse than the poor scarlet woman you drove out of town. I can win to Christ drunkards and harlots quicker than I can win some of the church members of Ada."

PEACE CONFERENCE COULDN'T DEAL WITH DICTATOR BECAUSE HE FAILED TO KEEP TERMS.

By the Associated Press
VIENNA, Aug. 1.—Bela Kun, the Hungarian communist dictator, has resigned and has been succeeded by a socialist government, according to a telephone message from Budapest.

The overturn of the Bela Kun government has been expected for some time. The peace conference had found it impossible to deal with the Hungarian dictator because of his failure to keep the armistice agreements. Likewise it regarded his rule as not representative of the Hungarian people.

The conference issued an appeal through Clemenceau July 26 asking the Hungarian people to change their form of government, pointing out that the lifting of the blockade and the reconstruction projects would not be undertaken with the government resting its authority on terrorism.

The men claim about twenty-seven members of the organization in Ada and contend that their demands are not unreasonable. Heretofore journeymen have been getting 62½ cents an hour with straight time for overtime, while the contract submitted to the employers asks for 75 cents an hour and time and a half for overtime. They also specify seven holidays and ask for double time on all these days and Sundays. They also ask for a maximum of two hours on the company's time for voting on election days.

The organization also asks that eight hours constitute a day's work. During the time the contract has been pending, the men can say that they have been working ten hours a day.

The men say that the strike will be a peaceful one; that there is no picketing and that there will be no violence. They are basing their fight solely on the contract submitted to the employers, they say, and further than the refusal of the companies to sign the contract they have no grievance.

The contract was submitted to the Cement Co., the Ada Electric & Gas Co. and Gay-Kirby Electric Co. Gay-Kirby signed the agreement while the other two rejected it.

We print below the contract submitted to the employers:

Agreement.
Ada, Okla., July 19th.

This shall be known as an agreement entered into between the International Brotherhood of Electrical Workers, of the first part, and the Oklahoma Cement Co., Ada Electric and Gas Co., and Gay-Kirby Electrical Co., and Associated Companies, of the second part.

GREETINGS:
First: That for and in consideration of harmonious relations and settled conditions of employment, and financial relations mutually beneficial, and the covenants and agreements hereinafter contained, the parties hereto do and hereby enter into, establish and agree to the following wage schedule and conditions of employment for a period of four and one-half months commencing August 15th, 1919, and ending December 31st, 1919, and continue to be in full force and effect after such period of time unless terminated by 30 days notice in writing or any time mutually agreed upon by both parties hereto. Upon which the same may be amended, cancelled or substituted as may be mutually agreed upon by parties hereto.

Second: It is hereby agreed and understood that members in employ of company are to receive the following wage conditions and terms of employment and in return therefor are to render to said company honest and diligent service.

Journemen Wage Schedule.
Journemen shall be paid at the rate of seventy-five cents per hour where employed by the hour; where employed by the month the rate shall be one hundred and fifty dollars per month, a month shall be known as twenty-six eight hour days. Time and one-half shall be paid for all overtime and double time shall be paid for all Sundays and holidays hereinafter forth, and for all consecutive hours after midnight.

Miserable Wretch Who Condones Rape Spreads His Putrid Filth in Ada

Editor The News,
Ada, Okla., U. S. A.
Respected Editor:

This day I am reading in a hand bill picked up in an alley in Ada a very fine article by a certain citizen of Francis expressing his gratification at the assault upon Mrs. John Correll and his sympathy for her assailants. Since the perpetration of that trivial misdemeanor I have felt sure that some of the very many who indorse the deed of the good citizens of Tamulipas would find sufficient moral courage to condone that offense and defend those who were participants.

It is a grand thing to find in this day of American Puritanism a brave man who is not blinded by an ignoble prejudice against the slight delinquencies with which my heroic countrymen are fond of whiling away their hours. Of course many thousands of Americans, including a very large majority of your colored citizens, believe that rape is only a pastime and should not be counted criminal, but how sad a thing it is that nearly all of these are silenced by the opinion of a Puritanical majority. Hence it is very encouraging to find one like the author of this hand bill stands on this question. He has served notice on all that his sympathy is with the rapist and I for one honor him for his bravery and frankness.

I am sure, as he avers, that he is losing no sleep over the stand he has taken in this matter. Loss of sleep is for those maudlin sentimentalists who affect to believe that the virtue of women should be held inviolate. When a man comes to realize that woman is the lawful prey of men and was put in this world to gratify the natural desires of man, he will sleep and sleep well.

It is so unfortunate for our friend of Francis that he must continue to live in his present congenial surroundings. He really should make his home among my people down on the Rio Verde or the lower Panuco. There he might live for years among men of his own kind. Down there he might even laugh at an attack on his own family, whereas if his family should be attacked up here among the Francis gringos a mob would undoubtedly punish the object of their wrath regardless of the wishes and opinions of my friend and sympathizer. By all means let him come to his own kind and find welcome among those who think as he does and who act as he would if he were not prevented by the foolish customs of these Americans.

Most respectfully,
PEDRO MANILLO.

MASS MEETING MONDAY EVENING
CITIZENS ASKED TO ASSEMBLE AT THE TABERNACLE TO DETERMINE ADVISABLE ACTION.

A mass meeting of the citizens of Ada has been called for Monday evening at the tabernacle. The meeting was called at the suggestion of the committee of the Chamber of Commerce, appointed to go into the water situation. The problem of getting a sufficient supply of water will be taken up. The city commissioners have the reports of the engineering company and these will be given.

O. N. Walker, secretary of the Chamber of Commerce, urges every one to be present at this meeting. It is the desire of those in charge of the water project to have an expression of the citizens as to what they want done. It will be a round table discussion, and every one should feel free to make any statement or ask any questions.

THE DEVIL'S DOPE, SERMON LAST EVE.

Friday evening at the tabernacle a larger audience than usual assembled. The song service was lively and spiritual, and the people were prepared to yield to the mood of the speaker when he began to preach. Evangelist Ham read the parable of the unclean spirit and stated that this lesson contained a right good picture of moral conditions in the city of Ada. He said in part as follows:

"Ada cleaned up before we came to town, but when Ham and Ramsay got here and began to preach salvation instead of reformation a lot of your whitewashed saints declined to hear them. Your trouble is that you have substituted reformation for regeneration. You made greater preparation for our coming than most cities do, but you can't substitute preparation for the presence and power of God. I tell you that the last state of reformed men is worse than the first. Reformed people have joined all of your churches. The devil left them for a while and then returned to find the house swept and in order. Then he went and got seven other spirits more evil than himself and came to the man and made his state worse than the first. Harlots and thieves are not one-eighth as mean as some of you old church hogs. I am talking about some of you who are members of the churches and fighting this revival. Some of you are opposing your pastors and giving Christ the go by. You are whitewashed, galvanized, baptized, and on your way to hell.

"There is a perfect peace under the control of the devil, and then there is a perfect peace that comes to the man who is absolutely under the control of Christ. Is there a man here who knows the difference from experience? (At this juncture one of the recent converts of the revival stood on a seat and bore testimony to the fact that he knew and had the peace of perfect surrender to Christ now.)

"Man was builded as a beautiful palace intended for the indwelling of God. The devil looked upon the earth and decided to tempt him and secure his fall. He came to earth and deceived mankind by slandering God. Millions have lived and died and gone to hell soothed by the dope of the devil. The dance, the card table, theaters—these are some forms of the devil's dope. The mansion of human life is a three story palace, but the devil keeps you out of the upper story all he can. He does not want you to spend much time in the chamber of hope. The devil knows it will not do for a man to spend much time in the chamber of meditation. This is why he builds theaters all over the land. When you begin to think he rushes you off to the show. Some fish can be caught with a worm and others have to have live bait. The devil uses the dance and the card table for some, and for some the theater—anything to keep you from thinking. Business—business—business! catches some men, and one day some of the business men of Ada will drop dead and fall into hell.

"Some of you are like hogs in the fattening pen and led on by one more dollar, or one more customer. The hog pays no attention to the vat at the end of the lot and lots of the people in Ada are not worrying about anything but another dollar.

"If a chap gets a bit religious the devil comes along and hands him out a pile of filth called Russellism whose author was as vile as the devil himself and as potent as any harlot. If the subject is a hysterical woman or an effeminate man the devil dopes out to him a dose of that other crook Mrs. Eddy. If you can't swallow Eddy, or Russell, then go on cold storage in the Presbyterian church. You can find a cooling chamber in most any of the churches in Ada. (At this juncture somebody asked 'What about the Episcopal?' The evangelist.)

High Shoe Cost Blocks Recess

By the Associated Press
WASHINGTON, Aug. 2.—Without a record vote the senate today adopted a resolution requesting the senate banking committee to report whether legislation to reduce the amount of currency in circulation was advisable as a means of reducing the cost of living.

The resolutions were sponsored by Senator Myers, democrat, of Montana and had been under debate for two days.

Efforts to have the house recess for two weeks were blocked today by Representative Igoe, democrat, of Missouri, who refused unanimous consent until after the house had acted on his proposed investigation of the high cost of living.

Mildew.

Mildew usually appears on the fibers of cotton and linen; it takes the form of small round dark spots; in reality it is a vegetable growth, or form of fungus, which develops on the fibers of the material. Its appearance is due to dampness, and reflects discredit on the work of the housekeeper, as the clothes must either have been put away damp or kept in a damp cupboard.

Owing to the nature of mildew it is difficult to remove. One of the simplest remedies is to moisten the stained fabric, rub it thickly with soft soap and sprinkle it with common salt. Place the material on the grass in the sunshine and keep it moist. Renew the treatment each day until the stain disappears.

A quicker method, and a surer one, is to keep the stained part in white material in a solution of bleaching liquor. To prepare the bleaching liquor, put half a pound of chlorinated lime into a basin and pour half a gallon of boiling water over it; add two tablespoonsfuls of washing soda, and stir to break up all the lumps, and to enable the water to extract all the chlorine. Strain carefully to remove all the powder and to make the liquid clear. Bottle and keep ready for use.

This liquor is used chiefly for the removal of obstinate organic stains, such as dyes, fruit, wine and old tea or

coffee stains. But it should only be used for fabrics made from vegetable fibers, such as linen and cotton, as its application to wool and silk proves fatal to the fibers. The solution should never be stronger than one part of the liquor to four parts of hot water.

Tonic for the Bath.

A bath much favored by the Kneipists, along with the bare-foot habit, is formed from a solution of pine needles and pine cones. Cover with cold water about a pound of fresh pine needles and pine cones, broken in small pieces. Roll for half an hour, strain and add the solution to the bath. If you do not want to use the entire amount at once it can be bottled and kept for future occasions. This has a tonic effect both on the nerves and the skin. It can be used on alternate days with a bath of sea salt.

Fresh Gloves.

Gloves should be kept as clean as possible, and of course should never reveal a slit. Silk the same color should be used to keep gloves in repair. For general street wear dark or medium toned gloves are to be preferred, unless one can afford white kid gloves of immaculate freshness.

By News' Special Service

LONDON, Aug 1.—The general industrial unrest in Great Britain, which has been seething ever since the armistice, seems at the present hour to have reached a point which menaces the commerce of the country with at least temporary disaster. It is considered possible that it may mean the downfall of the Lloyd George government.

The strikes of the past month have been serious enough, but they are merely symptomatic of an epidemic of dissatisfaction which appears to prevail throughout the ranks of organized labor.

The worst movement of all, from the government standpoint, is the threat of "direct action by the triple alliance of railway men, miners and transport workers."

Lord Asquith, who has had more experience than any man in England in settling labor disputes, has denounced the premier bitterly as re-

sponsible for the present conditions by his policy of "political interference in industrial business."

Minister of Pensions Hodge said in parliament: "It looks as if we are approaching a general election."

Premier Lloyd George's famous policy of compromise so long successful, appears to have reached the breaking point and certainly is undergoing its severest test.

MEETINGS**

There will be a series of gospel sermons beginning August 7th, and continuing for thirty days, at the Church of Christ on East Main Street, conducted by Evangelist T. W. Phillips of Fort Worth, Texas. Everybody will be welcome at these meetings and you will make no mistake in coming, as Bro. Phillips is one of the greatest evangelists of the day and will preach the Word in its purity and simplicity. During this meeting Bro. Phillips will answer any Bible question you may want to ask, so if there is anything that you do not understand about the Bible, don't hesitate to ask him and it will be answered in a kind, simple and sensible way. Remember also that there will be no collections at this meeting except the contribution on the first day of the week.

FREE RIDES TO AND FROM THE PARK

THE TOWN GOSSIP

By MILTON LESTER

A LOT of folks
HAVE OFTEN wondered.
HOW IT happened.
THAT LESLIE Prince.
NEVER GOT married.
AND WHEN you look at him.
AND TAKE notice.
OF HIS sylph-like form.
AND GRACEFUL countenance.
IT CERTAINLY does seem
strange.
AND I'VE been wondering.
ON MY account.
AND IT wasn't until yesterday.
THAT I really found out.
THE INSIDE facts in the case.
AND P. S. Case told me.
AND IT seems.
THAT IN his younger days.
LESLIE WAS awfully popular.
WITH THE flocks.
BUT EVEN in those days.
HE WAS mighty wary.
AND USED to steer clear.
OF ALL entangling alliances.
BUT ONE time he got caught.
AND IN the morning.
WHEN HE woke up.
IT WAS to the realization.
THAT HE was an engaged man.
AND HE didn't like it.

AND HE kept worrying.
OVER THE matter.
FOR SEVERAL days.
BUT THERE was no way.
FOR HIM to get out of it.
AND THE day of the wedding.
RAPIDLY DREW nearer.
AND A couple of days.
BEFORE THE assigned date.
THEY HAD a rehearsal.
OF THE ceremony.
AND WENT through the thing.
FROM START to finish.
AND ONE of the fellows.
HAPPENED TO notice.
THAT LESLIE was awfully
nervous.
AND HE whispered:
"WHAT'S THE matter.
"HAVE YOU lost the ring?"
AND LESLIE whispered back:
"N-N-NO INDEED.
"B-B-BUT I'VE lost.
"M-M-MY ENTHUSIASM."
AND THE bride.
OVERHEARD THE remark.
AND BROKE off everything.
AND FROM that day
LESLIE HAS lived.
HAPPILY EVER after.
I THANK you.

This program consists in the following declaration of principles which has been characterized as the Labor Bill of Rights, viz:

"1. In right and in fact the labor of a human being should not be treated as merchandise or an article of commerce.

"2. Employers and workers should be allowed the right of association for all lawful purposes.

"3. No child should be permitted to be employed in industry or commerce before the age of fourteen years. In order that every child may be insured reasonable opportunities for mental and physical education between the years of fourteen and eighteen, young persons of either sex may only be employed on work which is not harmful to their physical development and on condition that the continuation of their technical or general education is assured.

"4. Every worker has a right to a wage adequate to maintain a reasonable standard of life, having regard to the civilization of his time and country.

"5. Equal pay should be given to women and men for work of equal value in quantity and quality.

"6. A weekly rest, including Sunday or its equivalent, for all workers.

"7. Limitation of the hours of work in industry on the basis of eight hours a day or forty-eight hours a week, subject to an exception for countries in which climatic conditions, the imperfect development of industrial organization or other special circumstances render the industrial efficiency of the workers substantially different. The International Labor Conference will recommend a basis approximately equivalent to the above for adoption in such countries.

"8. In all matters concerning their status as workers and social insurance, foreign workmen lawfully admitted to any country, and their families, should be insured the same treatment as the nationals of that country.

"9. All states should institute a system of inspection, in which women should take part, in order to insure the enforcement of the laws and regulations for the protection of the workers."

Seeks Wide Powers.
Whether or not this general declaration shall be adopted by the powers signatory to the peace treaty its formulation and recommendation by the International Commission indicates the extent of the programme which the civilized powers of the earth are invited to adopt. The Commission also adopted a resolution expressing the hope that as soon as possible an agreement should be arrived at between the high contracting parties with a view to endowing the

"International Labor Conference, under the auspices of the League of Nations, with power to take, under conditions to be determined, resolutions possessing the force of international law."

This proposal embodies the recommendation of the Interallied Labor and Socialist Conferences held in London in August, 1917, and February, 1918. It is at variance with the general plan of the Covenant of the League of Nations, which carefully avoids any effort to erect a super-sovereignty over the nations, and confines itself to international agreements and their enforcement as the principal basis for the preservation of international peace.

Can Labor Conditions Be Standardized?
Many of these recommendations for the improvement of labor will appeal at once to the favorable judgment of the world. How far the present unequal condition of development of the different countries composing the League of Nations will warrant the standardization of labor conditions proposed by this convention is a matter calling for careful examination. The project involves a novel effort of far-reaching consequence. In view of that novelty, it is to be regretted that the proposed convention should be made so extraordinarily difficult of amendment as is proposed. By its terms, any amendment must first be adopted by the conference by two-thirds of the votes cast by the delegates present, then ratified by the states whose representatives compose the Executive Council of the League of Nations and finally by three-fourths of the states whose representatives compose the Body of Delegates of the League. The plan as a whole undoubtedly will appeal to a large number of people. It will have the endorsement of organized labor in the United States, and cannot fail to exercise a great influence upon the ratification of the peace covenant itself.

There were smaller grants for children, so that it was possible for an unskilled workman with four children to draw nearly \$11 a week which was more than some could earn at work.

When the joyful news of this pay for doing nothing spread many tired workers immediately resigned their jobs and came upon the government, according to testimony in the courts, while others who never had done nor wished to do any work found themselves in the happy position of gathering unexpected manna from the heavens.

Instructions from the government to disbursing officials were to lean toward the side of generosity and this policy appears to have prevailed.

Business Head For President Is Scott Boom

By News' Special Service
NEW YORK, Aug. 1.—Oklahoma in particular and the west and south in general, will demand that a big business man be elected president in the next election, according to Milton D. Scott, head of a large mercantile concern of Oklahoma City, Okla., who was at the McAlpin hotel today.

He said that some man like Chas. M. Swab or Frank A. Vanderlip without doubt would be the man most supported throughout the country.

"A big, successful business man, say, for example, Schwab," he said, "would be elected without any attention paid to whether he was a republican or a democrat. The people out there are tired of all this talk and so little business method 'out behind the matter of running the government.'"

He added that Oklahoma, throughout its history a democratic state, would, if left to a vote as between the democrats and republicans, go two to one republican.

Mr. Scott was in New York preparing for materials for building one of the most modern department stores in the southwest.

ENGLAND REDUCES THE PAY OF ARMY OF LOAFERS

By the Associated Press
LONDON.—(By Mail)—The payroll of the unemployed to whom the government is making a weekly dole has been reduced by about 500,000 names since May last when the government drew its purse strings tighter. From November to May the weekly benefits were paid to about 1,250,000 persons. Payments are now being made to about 750,000. At first the amount paid the men out of work was \$6 a week, \$5 to women, 3 to boys, and \$2.50 to girls.

NO WORMS In A Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance.

Grove's Tasteless chill Tonic

contains just what the blood needs, Iron and Quinine in a form acceptable to the most delicate stomach and if given regularly for two or three weeks will enrich the blood, improve the digestion and act as a general strengthening tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. It is pleasant to take. Price 60c.

PERFECTLY HARMLESS. CONTAINS NO NUX-VOMICA OR OTHER POISONOUS DRUGS.

When A General Strengthening Tonic is Needed in the Home For The Child, For the Mother or the Father, Take Grove's Tasteless chill Tonic

You Sit Where You Always Sat On the Seat of the Implement

MOLINE
UNIVERSAL TRACTOR
It Solves The Farm Help Problem

You wouldn't think of riding on the back of one of your horses in order to guide your team. If you did you would have to have another person to operate the implement, because you know most farm implements require constant attention.

Then why attempt to operate a tractor in a manner which your experience has proven impractical? It is just as illogical to ride on your tractor in front of the implement, and expect to operate the implement from that position, as it is to operate the implement from the back of your horse.

Any way you look at it you are working at a disadvantage with the ordinary tractor. To do the best work two operators are required, one on the tractor and one on the implement. In these days of extreme labor shortage this is a tremendous handicap. With

the operator on a tractor in front of the implement it is manifestly impossible for him to give the implement attention and make adjustments for varying field conditions without losing time.

With the Moline Universal Tractor you sit on the seat of the implement and have perfect control of both tractor and implement. You are in the best position to observe the work, make adjustments and manipulate both tractor and implement. This holds true regardless of the work being done—plowing, discing, planting, cultivating, mowing, harvesting, etc. There is nothing new about this, we simply apply a principle which millions of farmers have demonstrated to be sound. The Moline Universal gives one man control of greater power than is possible with horses, with the same method of handling and as much versatility.

The one-man feature is just one of many advantages the Moline Universal has over other tractors. It is the only tractor which will do all farm work, including cultivating. It is the only tractor regularly equipped with self starter and electric lights. Non-robust labor can operate it successfully, and it can be worked day and night.

No detail has been overlooked to give the new Moline Universal Model D Tractor positive reliability. The perfected over-head valve 4-cylinder engine develops unusual power, and is economical in operation. It is conservatively rated at 9-18 H.P. Oil is forced to crankshaft bearings under 35 lbs. pressure. Gears are steel cut, drop forged, and heat treated. All shafts are splined. Every working part is easy to get at, and every moving part is enclosed.

THIS isn't one of those fake free treatment offers you have seen so many times. We don't offer to give you something for nothing—but we do guarantee that you can try this wonderful treatment, entirely at our risk, and this guarantee is backed by your local druggist.

This makes the offer one which you can absolutely depend upon, because the druggist with whom you have been trading would not stand behind the guarantee if he did not know it to be an honest and legitimate one.

Hunt's Salve, formerly called Hunt's Cure, has been sold under absolute money back guarantee for more than thirty years. It is especially compounded for the treatment of Eczema, Itch, Worm, Tetter, and other itching skin diseases.

Thousands of letters testify to its curative properties. M. Timmerlin, a reputable dry goods dealer in Durant, Oklahoma, says: "I suffered with Eczema for ten years, and spent \$1,000.00 for doctors' treatments, without result. One box of Hunt's Cure entirely cured me."

Don't fail to give Hunt's Salve a trial—price 75 cents, from your local druggist, or direct by mail if he does not handle it.

Telephone No. 4.

LET'S TAKE THE PRECAUTION.

Prognostications are coming from government quarters, from medical authorities in New York and other large cities, in fact from various sources, that there will be a recurrence of the "Flu" epidemic this fall and winter that will make the one of last winter pale into insignificance.

We detest calamity howlers, and would like to believe that such will not be the case, but the predictions in question may have solid foundation, and whether the worst happens or not we should be prepared for it.

Ada was caught unprepared last year, but she should not be caught that way this year. We should begin now to adopt every sanitary precaution possible, and we should be in a position to put an emergency hospital into commission on short notice.

The board of health should be well organized and ready for the work that will follow should the epidemic strike suddenly, as it most likely will if it strikes at all, and the undertakers should replenish their stocks now in order that they may not suffer the congestion that occurred last year.

Furthermore, the united charities fund should be replenished in order that no unfortunate person be neglected, and every other benevolent organization should be prepared to do its whole duty should the worst come.

THE COUNTY HOSPITAL.

The suggestion of Milton Garner, which appeared in the News a few days ago, that the county vote bonds for a county hospital at the same time that bonds are voted for a court house and jail, was a most timely one, and one that every taxpayer would do well to consider.

There is nothing that could be more important than an adequate and well equipped county hospital, and we trust that the people of Pontotoc county will take advantage of the law that allows us to vote bonds for this purpose and do it at the same time that they vote the bonds for the court house, be that whenever it may.

As pointed out by Mr. Garner, the amount of money required to build and equip a modern county hospital would soon be spent, in case of an epidemic such as we had last year, in taking care of the situation by providing improvised methods and makeshifts.

Let us again remind the county commissioners that they have the power to order an election to vote bonds for this purpose, and let the people speak out and have it understood that they are in favor of such an election just as soon as it is thought that the tax valuations will stand such a levy.

LET US BE UNDERSTOOD.

Because the News dares to give its opinions on matters of concern to the whole people, and because it makes suggestions from time to time as to what Ada ought to have, or ought to do, is no argument on our part that we know all there is to know or that we are always right.

Furthermore, we realize that a newspaper that desires to do the right thing and serve the whole people, as does the News, is more or less a semi-public service concern, for it is the public that we are seeking to serve.

This brings us to what we want to say, namely, that if you disagree with the News on any matter concerning the public weal, the News will print your arguments and opinions just as freely as it gives space to its own. This paper is no "organ" or private snap for anybody. It is here to serve this community to the very best of its ability and we want you to make it a public forum.

The happiest persons in the world are not the richest. Nine times out of ten a millionaire with his limousine is not as happy as a workman with his flivver.

You cannot hope to succeed without teamwork AND harmony. Simon Legree had teamwork but no harmony.

You can now send a letter to Germany, but probably you have already expressed your opinion of that country.

The league will work smoothly enough if it can establish an international standard of morality.

Lenine's method is to help the poor man by teaching him to help himself to anything he wants.

Everything good is within our hearts; when we discover this fact we will achieve success.

NEBRASKA RATIFIES WOMAN SUFFRAGE ALSO

By the Associated Press

LINCOLN, Neb., Aug. 2.—Nebraska today joined the list of states that have ratified the federal woman suffrage amendment, when the house passed a joint resolution favoring ratification. The senate voted favorably on the question Thursday. Nebraska is the fourteenth state to ratify the suffrage amendment.

Around City Hall

Today is bleak and dark and dreary. No tramps have come, all weak and weary. No fights occurred, no drinks been drunk. The jail is empty—business punk.

Ham-Ramsay have offenders on the run. They neither drink nor tote a gun. Even crap shooting's out of date. And "chock's" clean off the slate.

Doc Banks offers the jail for rent. To date no acceptance has been sent. If things keep up at this same pace, Ada'll soon be a decent place.

Now, cops, please be good and calm. Find nothing that resembles harm. Wait till the sheet is out today. To take someone over the way.

We've worked hard to write this verse. We know it's bad—we admit it's worse. But effort we have had to spin it. Please be good, we want to print it.

CHICAGO CAR STRIKERS LOSE \$330,000 IN WAGES

By the Associated Press

CHICAGO, Aug. 2.—Street car service was resumed here today after a four days' strike of 15,000 elevated and surface carmen, estimated to have cost the workers \$330,000 in lost wages.

Sixty-five cents an hour for surface and 67 cents an hour for elevated men was accepted by the strikers after a referendum vote showed that a majority were in favor of calling it off.

Ada Boy Goes to Sulphur.

Garvin Atkins returned last night from a fishing trip to the Washita river and a few days' visit to his brother, Jerry Atkins, at Sulphur. Garvin states that he and his brother, Perry, of Sulphur, have purchased the D. W. Wiley drug store (Corner Drug Store, at that place. He returned to Sulphur today, where, with his brother, will take charge of the business at once. Both of these young men have had several years' experience in the drug store and confectionery business. They are ambitious and industrious young men and the many Ada friends of Garvin wish for him and his brother a splendid success in their new venture.

Card of Thanks.

We, the children of Malcomb M. Smith, who died in Ada, Sunday, July 27, 1919, at the home of his son, Cranston D. Smith, wish to express their sincere gratitude to the many Ada people who were so kind to us during the illness and death of our loving father. Especially do we wish to thank the Ada Evening News management for an offering of beautiful flowers. These kindnesses help so much to make more bearable the shadow through which we are passing, and we hope that you may have the richest blessings of the Heavenly Father.

When Garver Atkins left here last Tuesday, ostensibly on a fishing trip to Sulphur, it was not suspected that Dan Cupid was connected in any way with the trip, but nevertheless, Little Dan was then holding the score card, and acted as master of ceremonies on the occasion of Mr. Atkins' marriage to Miss Ethel Taylor of Durant on Tuesday evening at 9:30 o'clock, at the home of the bride in Durant. Mr. Atkins left today for Sulphur where he will be joined later by Mrs. Atkins at which place they will make their future home.

SOCIALIST GOVERNMENT ANNOUNCED FROM BUDAPEST

By the Associated Press

COPENHAGEN, Aug. 1.—A Budapest dispatch today announces that a purely socialistic government has been formed under the leadership of Herr Peidel. The new government issued a manifesto, advising state, declaring its chief duty to be to preserve international order and look into negotiations with the entente.

Nevertheless, it's doubted that Bryan is planning to "come back" as a candidate.

First Christian Church.

(2nd Block, S. Broadway). A live Bible school meets at 9:45 and continues until 10:30 during the revival.

Following the Bible school a short period of worship is observed during which the Lord's Supper, the New Testament teaches that this institution is to be observed every first day of the week. In this beautiful way we remember the Lord's death, and our hearts are filled with love for Him. Hence every member of the church is urged to be present for this spiritual feast.

Following the Lord's supper comes the offering. This also is a part of the worship, and should not be neglected. Giving should be a source of joy to the Christian. At best it is but a feeble return for God's great gifts. Let us not forget this admonition of the apostle. (1 Cor. 16:2.)

The period is closed by singing an invitation song for anyone to take membership with the church or make a confession of faith in Christ, afterward to be buried in baptism to be raised to walk in newness of life. Last Sunday three took membership. Dr. and Mrs. G. A. Akers and Miss Mabel McKee.

Others are expected next Sunday morning. Those living in the city who are members elsewhere should unite with the local church at once. A welcome awaits you.—C. V. Dunn, Minister.

First Baptist Church.

We had above 300 in Sunday School last Sunday, which was fine but we missed many familiar faces. A great many of our regular attendants at Sunday School are not coming and we want to urge you to come tomorrow. We realize that it is somewhat of a task to get to Sunday School and then to the tabernacle, but we simply can't afford to let down our church work. Three hundred people in our church did both last Sunday and you can too if you are willing to put on a little high pressure. The soldiers in the army were asked to do many things that they did not think they could do but they did. Will we not be loyal to the army of the Lord in these times of testing? Come tomorrow at 9:45 and spend an hour in Sunday School.

We had 17 additions to the church last Sunday. We should have 50 or 75 people who have presented themselves for membership during the meeting have expressed a preference for the Baptist church. Are you one who claimed to surrender to the Lord? Then prove how completely you surrendered to Him by keeping His commandments. At the close of the Sunday School hour we will open the doors of the church for the reception of members and it will be a delight to receive you.

The B. Y. P. U. will meet at 7 o'clock and all our young people are urged to come.

And let me urge members of our church to avail themselves of hearing every sermon at the tabernacle. We are with Brother Ham to the limit in everything he says we want him to know it, and above all do we want to stand loyally by the Lord in this battle.—Clyde Calhoun Morris, Pastor.

THE BANK THAT "PUSH" BUILT

The present management of the Guaranty State Bank of Ada took charge of the bank March 1, 1919. There is no use in denying the fact that this institution was in a weakened condition at that time. Facts are facts, and the sooner they are met face to face and disposed of, the better the chance for improvement.

We took hold of this bank with the determination to clean up—that is, clean up the bank, not profits. No small amount of bad paper was charged off. It hurt to have to junk so much stuff, but the sore had to be treated, and we treated it. But "Jones—he paid the freight." Our bank was soon in a clean, healthy condition—in fact, in as good condition as any in the state as regards bank paper.

But as to deposits we couldn't say much. On February 28, the last day preceding our taking over the bank, \$110,890.84 was on deposit. Here is the record by months:

February 28, 1919	\$110,890.84
March 31, 1919	113,379.08
April 30, 1919	135,698.69
May 30, 1919	156,923.94
June 30, 1919	169,830.18
July 31, 1919	178,208.05

Thus you observe that our deposits have made an average gain of \$11,219.53 per month during the six months of our management; an average gain per month almost half as large as our capitad stock.

Where is there a bank that shows the same record?

We have accomplished these results by working hard, by pushing, by serving. Yet we have not gone half the distance as regards growth that our friends expect of us. But we will.

GOVERNOR ENTERS GRADING DISPUTE

By News' Special Service
OKLAHOMA CITY, Aug. 2.—Governor Robertson yesterday took a hand in the alleged unfair treatment of farmers in grading wheat when he directed John A. Whitehurst, president of the state board of agriculture, to make an investigation of reports of alleged improper practices on the part of buyers at Ryan.

Mr. Whitehurst said he would detail one of his inspectors to look into the situation, and that if conditions warrant, the attorney general will be asked to proceed with some kind of civil or criminal action against those responsible for the alleged unfair treatment, it was said.

A Brooklyn judge decided that 2.75 beer is intoxicating, but whether from personal experience dependent saith not.

It is opined that the California preacher who advertised "Come to church and be cool" does not preach Billy Sunday sermons.

The Cleveland poet who thought he could lick an ice man must have drank something with an awful kick in it.

"Make the world bone dry" is a slogan with more boosters at home than in all the rest of the world.

UNIVERSAL MILITARY TRAINING ADVOCATED

By the Associated Press
WASHINGTON, Aug. 1.—What is intended to be a nation-wide movement in advocacy of universal military service was inaugurated by the military training camps association here tonight with a dinner in the New Willard hotel and speeches by Senator James W. Wadsworth, of New York, chairman of the senate committee on military affairs; Senator Chamberlain of Oregon; and Representative Julius Kahn, of California.

The prepared speeches of Senator Wadsworth who presided and of Senator Chamberlain strongly emphasized the need for a trained citizen soldiery.

It was announced that Senator Chamberlain and Representative Kahn would introduce in congress a bill drawn by Major Thomas McIlvaine, chairman of the committee on universal training of the Military Training Camps Association. This measure is to embody provisions for six months training in cantonments of all young men at the ages of eighteen or nineteen years, aliens to become automatically naturalized by completion of training.

Under this bill the regular army would be a "small professional force" and the National Guard would be "restored to its constitutional function" and could not be ordered out of the country without its own consent or that of the state authorities. The National Guard would be recruited from the men who had completed their six months of training. A certain number of men would be permitted to take their training in the navy, constituting a naval training force.

Veterans of the great war would be asked temporarily to constitute the reserve so as to transmit to the younger men their experience and training.

If You Own Real Estate, You Own Air Above Also

By the Associated Press
KANSAS CITY, Mo., Aug. 2.—Basing his argument on the common law that a man owns the earth beneath his property to the center of the globe and the air above for an indefinite distance, Frederick Hoemann, a suburban farmer, was granted a temporary injunction in the circuit court restraining a local motor firm from operating airplanes over his farm. The case, which is believed to be the first of its kind to come before the courts, will be heard at the September term of court.

The motor firm maintains a hangar a few hundred feet from Hoemann's suburban farm and prior to selling an airplane makes a test flight over the surrounding country. Hoemann alleges that the planes fly over his farm at a low altitude, frightening his horses. He claims that during a test flight one of his horses, during a fit of terror, ran into a ditch and broke a leg.

Judge Thomas B. Buckner in circuit court temporarily sustained the contention, based on old English common law, that a man owns the earth beneath his property to the center of the globe and the air above to an indefinite height.

"A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I was..." says Mrs. J. B. Gadd, of this place. "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side..."

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there.

I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did.

This last Cardui which I took made me much better, in fact, cured me. It has been a number of years, still I have no return of this trouble.

I feel it was Cardui that cured me, and I recommend it as a splendid female tonic.

Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, sideache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists.

FIGHTING DANCE HALLS IN OKLAHOMA CITY NOW

By News' Special Service
OKLAHOMA CITY, Aug. 2.—A new ordinance which, ministers hope, will meet the approval of the city commissioners in regard to the dance hall matter has been drawn up and will be submitted to the commission as soon as the dance committee of the ministerial alliance passes on it, according to Rev. E. L. Thompson, a member of the committee. The substance of the new ordinance is not to be announced until after it has been passed upon by the committee.

Thompson told the alliance at a meeting this morning in the Y. M. C. A. the committee has drafted several ordinances for submission to the commissioners, but that all had failed. He hopes that the one now drawn up will be passed. Thompson will leave on a vacation this week and his place in the anti-dance fight will be taken by Rev. H. E. Swan.

CHIEF BOSSES OF THE PACIFIC FLEET NAMED

By the Associated Press
SAN FRANCISCO, Aug. 2.—San Francisco, Puget Sound and Pearl Harbor, Hawaii, will be the three chief bases for the Pacific fleet, according to naval officers here. The first two ports will hold most of the vessels that will be laid up with skeleton crews and the larger ships on active duty will chiefly center at Pearl Harbor, it is said.

San Pedro and San Diego will be base ports for many submarines, destroyers and chasers. More patrol vessels also will be available for Alaskan waters.

Just how the fleet will be divided among the waters of the Pacific was not known here and it was said division would not be decided until after the fleet had made its tour of coast ports and to Honolulu.

It has been intimated that a great training station for Southern California would be established at San Diego.

Court House News

The American Investment Co. has filed suit against N. L. Wesson et al, seeking to foreclose real estate mortgage.

Suit was filed yesterday in the district court by Wheeler-Motter Co. of St. Joseph, Mo., against Liberty Clothing Co. of Allen plaintiff, seeking to recover \$303.35 on account. The plaintiff is represented by C. F. Green.

Connubial bliss had the better of the race yesterday, no divorce cases having been filed, while one marriage license was issued. The parties to the case were Mr. Bob Shumaker, aged 22, and Miss Effie Burnes, aged 21, both of Ada.

The Bank of Quapaw has filed suit against the Reeves Mill and Elevator Co. and C. D. Reeves, president thereof, seeking to recover a loan. Plaintiff asks for \$1,009.78 and attorney's fee. The Bank of Quapaw is represented by J. F. McKeel.

J. P. Jones has filed suit against G. C. Carroll, both of Roff. Mr. Jones alleges that he was maliciously prosecuted by the defendant; that defendant had willfully and falsely talked about plaintiff, because plaintiff had taken from him a cultivator which plaintiff claimed as his property. It is further alleged that defendant sought to have Mr. Jones arrested on the day his little grand child was buried. Mr. Jones alleges that he has been embarrassed and damaged among his friends and neighbors, and prays for damages in the sum of \$10,095.00. J. F. McKeel represents the plaintiff.

Business in justice court picked up in the past 24 hours, the following cases having been filed:

George Ford and Rufus Birdwell are charged with fighting at a picnic at Steedman Friday. It is alleged that Ford was armed with a club and that Birdwell wielded a pair of wire pullers. Both were poor workmen and no results were accomplished.

Lawrence Owens, who was sent back to jail yesterday because he failed to make bond in the case wherein he is charged with stealing A. R. Sugg's watch, is the defendant this morning in two more cases. In one case he is charged

list replied that they had neither politics nor religion and that he did not count the church of England among the forces of righteousness in any community. If the devil can get you into the churches unconverted, he is perfectly satisfied. Some of you think you have a paid up policy, a through ticket to heaven, and you will wake up in hell, you old hypocritical church member, you. If a church member is not interested vitally in the salvation of the lost, he is as surely on his way to hell as Judas ever dared to be. A sinner can die and go to hell from Ada and nobody cares. Some church members are right now hissing at Ham and Ramsay, but some of these days when hell opens before you, will you hiss? The devil has some of you thinking you are sprouting wings when you are just an old devil. Some of your church officers can't lose sleep to come to these meetings. You'll be bending above the death bed of some loved one before a year rolls around. Except ye repent ye shall perish."

Scores of people responded to the appeal of the evangelist and thirty or more accepted Christ.

The Hotel Mens
Exposition In
Chicago Aug. 4

By the Associated Press

CHICAGO, Aug. 2.—How the wisdom of the ancient Egyptians is still of value to the modern industrial world is expected to be shown at the Coliseum in Chicago, when exhibits of dehydrated products are placed on view to indicate one method of reducing the high cost of living.

This will be at the Hotel Mens Exposition, which starts Aug. 4, and lasts a week.

The purpose of this particular exhibit will be to indicate how vegetables and fruits may be bought during the season of plenty and stored throughout the year in a small space, being used when the prices are high. The principle of conservation is the same as cold storage, but the method is different, and, for fruits and vegetables, is said to be far superior.

It is said that for fruits and vegetables preserved by this process the cost is less than that of canning; that the only containers required are paper sacks, instead of expensive cans and jars, and the space required is also much less. The process consists of drying scientifically so that all the water is taken from the product. When it is used it is "re-hydrated," that is, steeped in water until it has re-absorbed practically its original water content.

The hotel men's exposition, at which this process will be shown, will also exhibit numerous other devices for the saving of labor and expense in housekeeping, and is exciting considerable interest among women as well as among those engaged in the hotel industry. Exhibits will include those relating to community effort to reduce domestic expense; various devices by which mechanical means may be used for service instead of human effort, in the desire to escape from the servant bugbear, and also many ingenious methods to insure the continuance of patronage of hotels and restaurants for amusement, after the removal of the liquor incentive.

the expenses, but desired to do it privately. He said they had not done it yet and he believed their pretensions were all tommy rot.

Ramsay advised that the church woman who gave the grocer hell for not delivering after closing hours for the morning service be kicked out of the store and out of the church to which she belongs.

Ham made inquiry as to the report that church members were seen in a poker game today. He

said that he was glad to see a larger audience at the tabernacle even if some church members did stay away to dance and play poker.

Mrs. U. L. White and children left today for Sulphur where they will visit a few days with Mr. and Mrs. J. E. Estes, after which they will leave for Fort Worth where they will join Mr. White, who preceded them there by several weeks. Mr. and Mrs. White will reside permanently at Fort Worth.
